Roman Khatri

Frontend Developer

9817996680 romanforgit@gmail.com GitHub LinkedIn Birtamode, Nepal

PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience building production web and mobile applications in the travel and booking domain using React, Next.js, TypeScript, and React Native. Built end-to-end booking flows, from search and fare revalidation to payments and ticket issuance, translating Figma designs into responsive, accessible interfaces. Skilled in reusable components, REST API integration, state management with Redux Toolkit, and performance optimization within Agile teams.

SKILLS

Languages :	TypeScript, JavaScript (ES6+), HTML5 (semantic markup), CSS3, PHP
Frameworks & Libraries :	React.js, Next.js, React Native (CLI & Expo), Inertia.js
Styling & UI :	Tailwind CSS, Shadcn UI, Responsive Design, Accessibility (ARIA, keyboard navigation)
State Management :	Redux Toolkit
APIs & Testing :	RESTful API integration, Postman, Jest
Tools & Platforms :	Git, GitLab, Docker, CI/CD, Figma, Firebase
Familiar with :	ASP.NET Core, Entity Framework Core, MySQL

WORK EXPERIENCES

Junior Developer | Full-time — Dec 2025 - Present
Mantra IT — *On-site • Lalitpur*

- Co-developed a Next.js and TypeScript flight booking platform (26 routes) as one of two frontend developers, owning features end to end across web and mobile.
- Built flight search and listing for domestic, international, one-way, round-trip and multi-city trips, with filters (price, airline, stops, departure time, refundable) and sorting (cheapest, earliest, fastest).
- Implemented the booking flow: passenger and passport forms (React Hook Form + Zod), fare revalidation, PNR creation and ticket issuance, integrated with flight APIs via Axios.
- Integrated national as well as international payment gateways on web and mobile
- Built account modules with NextAuth (email and Google login, profile and image upload, security settings) and post-booking features (trip history, e-tickets, itinerary timeline, cancellation and add-on service requests).
- Managed state with Redux Toolkit, built reusable Tailwind components, and converted Figma designs into responsive UI.
- Worked in Agile/Scrum with designers, backend developers, PMs and QA; handled performance optimization, cross-device compatibility fixes, code reviews and Docker-based deployments with CI/CD.
- Contributed to the React Native mobile apps (Expo and CLI), including Firebase Auth, push notifications, deep linking and maps, and used Firebase Analytics and App Distribution for testing and pre-release.
- Supported the Shree Airlines mobile app: fixed bugs, shipped minor features, and upgraded React Native, Expo SDK and the Android target API level to meet Google Play requirements.
- Gained hands-on backend development experience with PHP, Laravel, and Inertia.js, working with MVC architecture, Eloquent ORM, routing, controllers, CRUD operations, form validation, and database integration with React-based interfaces.

Technologies / Skills Used : *Next.js, TypeScript, React Native, Expo, Redux Toolkit, Tailwind CSS, NextAuth, React Hook Form, Zod, Axios, Firebase, Figma*

React Native Intern | Internship — Sep 2025 - Dec 2025
Mantra IT — *Hybrid • Lalitpur*

- Built UI screens, reusable components and REST API integrations for web and mobile apps using React Native, Expo, React and Next.js.
- Supported flight booking features, bug fixes, code refactoring and TypeScript improvements.

Technologies / Skills Used : *React Native Expo, Next.js, Figma, TypeScript*

Dotnet Intern | Internship — Apr 2025 - Jul 2025
Crystal Solutions — *On-site • Birtamod*

- Worked on an ASP.NET Core MVC ERP (C#, .NET 8, EF Core) using layered architecture and Git workflows, and wrote unit tests with xUnit and Moq.

Technologies / Skills Used : *ASP.NET Core, XUnit, Moq, Telerik, MySQL*

EDUCATIONS

Tribhuvan University | Bhadrapur, Jhapa — Apr 2022 - Mar 2026
Bachelor of Science in Computer Science and Information Technology — *Percentage : 75.81%*

- Relevant Coursework: Data Structures and Algorithms, Object Oriented Programming, Web Technology, Database Management System, Software Engineering

CERTIFICATIONS

- AI/ML Workshop Completion Certificate, Numa Digital Farm (2025)
- Django Workshop Completion Certificate, Hunchha Digital (2023)
